Skills :

Projects :

➡ Waslni

Waslni is a project that I created with the intention of allowing customers to book a car and driver to transport them in a manner similar to a taxi. Also, the user can become one of the drivers and earn money whenever he wants.

Tech : Next.js , Node js , Express.js , MongoDB , Mongoose , Docker , Kubernetes , Git , GitHub

➡ Click.ma

I created an online store where users can easily choose and purchase the things they want in an orderly manner. The store's owner has access to a sizable control panel from which he can manage users, products, and other aspects of the store.

Tech : React.js , Node js , Express.js , MongoDB , Mongoose , Cypress , Git , GitHub , React Native

➡ M&C

I created a website where people can quickly find mechanics for their automobiles and books to help them fix their cars.

Tech : Laravel , Mysql , Vue.js , Android studio
